

PETBOTTLE

PORTFOLIO 2016

Gdansk
Science and
Technology Park

EXPERIENCE | COMPETENCIES | RESPONSIBILITY

With more than a dozen years of experience in implementing different projects, we can offer our customers optimal tried-and-tested solutions. We also use innovation in a responsible manner.

Our location in the Gdańsk Science and Technology Park is conducive to developing our own technologies and implementing the best ideas.

We specialise in the comprehensive implementation of PET designs, from the concept, analysis of solutions, their translation into a prototype, to the manufacture of production-ready molds and laboratory measurements.

Our modern container designs have been recognised by leading bottling companies in Poland and abroad. Our own Design Department can meet even the most demanding of customer requirements, so we can establish a successful partnership to fulfil their wide range of needs.

PETBOTTLE Sp. z o.o. is a member of the Polish Chamber of Packaging.

COLA

FORMAT	1000 ml	1500 ml
THREAD	PC01881	PC01881
MATERIAL	PET	PET
WEIGHT [g]	33.00	46.60
TYPE	GAS	GAS

The background of the slide features a close-up, artistic photograph of several bottles. The bottles are white or light grey with a prominent, vertically oriented, textured grip area. The lighting is dramatic, with strong highlights and deep shadows, emphasizing the contours and textures of the bottles. A horizontal red band is positioned across the upper middle of the image, serving as a background for the section header.

MODERN DESIGN

A family of bottles designed for beverages such as COLA.
The optimised weight, modern design and application
of laser engraving improve the functionality of the bottles,
including the comfortable grip.

LEMONADE

FORMAT	500 ml	1500 ml
THREAD	PC01810	PC01810
MATERIAL	PET	PET
WEIGHT [g]	19.40	35.80
TYPE	GAS	GAS

PERSONALIZED BRAND

A family of modern designs for bottles dedicated to a specific brand. Thanks to our efforts, they are ideally suited to carbonated beverages such as LEMONADE, with attractive lettering engraved by laser.

ORANGEADE

FORMAT	2000 ml
THREAD	PC01881
MATERIAL	PET
WEIGHT [g]	34.00
TYPE	GAS

UNIVERSAL BOTTLE

We took up the challenge of creating a versatile
and lightweight container.
The result is a bottle characterised by innovative design
that can be used for any beverage.
The weight has been optimised to 34 g.

JUICE

FORMAT	1500 ml
THREAD	BERICUP 38
MATERIAL	PET
WEIGHT [g]	34.40
TYPE	NON -CARBONATED

OPTIMISATION AS THE FIRST STEP

Our engineers have created an interesting design distinguished by its wide space for the label and attractive pattern on the shoulder.
A bottle with an optimal tried-and-tested TOP LOAD (100 N).

BEVERAGE

FORMAT	1000 ml
THREAD	BERICUP 38
MATERIAL	PET
WEIGHT [g]	34.40
TYPE	NITROGEN

LABEL OR SLEEVE

We have designed a universal beverage bottle distinguished by its new version of the patented leaf-shaped decoration. The base is intended for the nitrogen stiffening process.

BEVERAGE/FLAVORED WATER

FORMAT	500 ml	1500 ml
THREAD	30/25	30/25
MATERIAL	PET	PET
WEIGHT [g]	15.70	34.00
TYPE	NON -CARBONATED	NON -CARBONATED

ECO DESIGN

For both bottles, our designers have optimised the weight and developed an interesting design, achieving the optimal TOP LOAD.

WATER

FORMAT	500 ml
THREAD	PC01881
MATERIAL	PET
WEIGHT [g]	19.40
TYPE	NITROGEN

INNOVATION AND FUNCTIONALITY

The bottle we have prepared for non-carbonated beverages is equipped with a base designed specifically for nitrogen stiffening.

A rejuvenated design and reinforced structure with characteristic indentations.

SPORTCUP closure.

SPORT OVERCUP

FORMAT	700 ml
THREAD	PC01881
MATERIAL	PET
WEIGHT [g]	28.00
TYPE	NITROGEN

MODERNITY

Together with the customer we have created an exceptionally functional bottle with a decreased weight. The champagne base was designed specifically to suit nitrogen stiffening technology. The modern design is complemented by the comfortable SPORTCUP closure.

SPORT AND RECREATION

FORMAT	700 ml
THREAD	PC01881
MATERIAL	PET
WEIGHT [g]	22.70
TYPE	NON -CARBONATED

KNURLED SQUEEZ GRIP

Our designer has given the bottle a sports character which, thanks to its comfortable grip and attractive laser texture, distinguishes itself among other bottles.

PHARMACY

FORMAT	250 ml
THREAD	44
MATERIAL	PET
WEIGHT [g]	34.00
TYPE	-

OPTIMAL JAR

Tested by us, the specially selected PET pigment colour helps differentiate between and discreetly display their contents.

ISOTONIC

FORMAT	350 ml
THREAD	-
MATERIAL	PET
WEIGHT [g]	26.60
TYPE	HOTFILL

PURE ENERGY

A transparent can made of PET with a traditional closure,
intended for HOT FILL.

An ideal container for a carbonated ISOTONIC beverage
or energy drink. The base is, of course, champagne.

ICE CREAM / SHERBET / COCKTAIL

FORMAT	500 ml
THREAD	-
MATERIAL	PET
WEIGHT [g]	35.60
TYPE	-

THE BEST FOR DESSERT

An interesting and functional container with optimised weight and a newly-designed closure.

Ideal for ice cream, sherbet, mousse, etc.

Helps to display products having attractive, multi-coloured layers.

CHEMISTRY

FORMAT	500 ml
THREAD	-
MATERIAL	PET
WEIGHT [g]	32.00
TYPE	-

CLASSICS IN GOOD STYLE

We have created a universal PET container with a classic tried-and-tested shape and the typical “stripe” motif. The optimised weight and OVERCUP closure make it ideal for manufacturers of household chemicals and cosmetics.

Innovations every day!
